

Information for Current and Potential TCP Instructors

As of June 30, 2003, TCP instructors must be certified by the Safety Network to teach in B.C. This certification satisfies WCB Occupational Health and Safety Regulation 18.6(2) as training “acceptable to the Board”.

Please note that TCP instructors with tickets from other jurisdictions, for example, Alberta, are not authorized to train TCPs in B.C.

If you are a TCP instructor, and/or you want more information on how to become a certified TCP instructor in B.C., please contact the Safety Network at (604) 436-0232 (toll free 1-866-860-0232) or visit their website at www.safetynetwork.bc.ca.
