Table 13 Occupational disease data by subsector, by type of disease, by five-year periods; 1984-2008

Subsector	Type of disease	Number of claims 1984 -1988	Number of claims 1989 -1993	Number of claims 1994 -1998	Number of claims 1999 -2003	Number of claims 2004 -2008	Number of claims 1984 -2008	Days lost 1984 -2008	Cost of claims 1984 -2008 (\$000)
	Other occupational disease	0	0	0	2	0	2	7,689	3,760
	Total	14	44	9	57	4	128	324,821	125,263

- (1) The 'number of claims' is the count of claims accepted for short term disability (STD) benefits, long term disability (LTD) benefits or survivor benefits in the period. Claims with only health care benefits are not included in the count.
- (2) The 'claim costs' are expressed in thousands of dollars.
- (3) The 'claim costs' are the dollars of STD paid in the period plus the value of the LTD & survivor reserves and awards set up in the period (regardless of the year the claim was counted). The 'claim costs' exclude health care and rehabilitation cost.
- (4) The count and cost statistics have been adjusted for the effect of uncoded claims. The adjusted statistics are rounded and shown as whole numbers. These whole numbers will not necessarily add up to the row and column totals shown because the totals are rounded independently.
- (5) Needlestick injuries that did not result in diseases are included because of their high potential for causing disease. Data for needlestick injuries is not available for 1983-1984.
- (6) Some employers have been reclassified since their initial classification into a subsector. The above table reflects such changes as of the reclassification date, but not retroactively.
- (7) 'No subsector assigned' includes claims charged to section 39 of the Act.
