cf (510 B)

I have a concern with the proposed change to Part 11 , specifically 11.6

(4).

This change would preclude use of engineered systems and anchor points that may not have a 5000 lb rating.

It is possible to design a system that is capable of fall arrest and has an anchor point that is rated lower than 5000 lb.

Part 11 should include a statement to the acceptability of a fall protection system approved by a Professional Engineer.

rgds,  
John Seckel PEng.
