# CAN-CRANE SPECIALISTS

To Whom It May Concern:

C A N CRANE Specialists is in full support of Qualification certification of Boom Truck Operators. Setting high standards in our industry is a large part of C A N Crane Specialists effort. We feel that the work that the BC Crane Safety Association has been doing is very informative and efficient.

I hope that the efficiency will continue with Qualification and recording of Qualifications.

Please keep small business in mind on completion of review.

Sincerely

Glenn Lafleche  
Crane Operator- C A N Crane Specialists
