Re: Section 18 (Traffic Control): There does not appear to be any allowance for "temporary traffic control". This would occur when a large truck is backing up into traffic and requires a co-worker to temporarily stop traffic to allow the truck to back up safely, such as in the downtown core or when backing up from a hidden driveway. Section 18.4 is very limiting by stating "Whenever traffic control is required...".

It would not be practicle for the co-worker in this situation to be held to the same standard as a "traffic control person" however appropriate high visibilty apparel would still apply.
