We need safe sharps now, not in 2008. We need it to cover all sharps. All pointy things that can hurt my mom. My mom is a nurse and if she becomes infected with some deadly or debilitating disease it is going to affect me and my future not to mention you are going to lose a really great nurse with tons of experience. . I love my mom and after her giving the public 28 years of her life taking care of the sick people surely you can do everything possible as soon as possible to protect her. Don't let my mom be a needle stick victim just because it is too expensive to buy safer products.. There should be no sharp injuries if we have the technology to prevent it..Please take care of my mom she is the only one I have and I need her.. and her patients need her healthy.
