
Submission ID: P08.Z86.KP2.G33

Part 6: Substance Specific Requirements, relating to safety-engineered devices for all hollow bore needles

1. Name: Suki Aujla

(a) Feedback is provided: on own behalf

Organization:

(b) Feedback is provided: from a worker's perspective

2. E-mail:

3. Feedback:

Part 6 - I support the amendment but would like to see the implementation date sooner rather than later. There is no way to track injuries included. They need to choose the best devices available.

4. Please indicate your level of support of the proposed amendments:
generally agree
