Part 6: Substance Specific Requirements, relating to safety-engineered devices for all hollow bore needles

1. Name: L. Roxanne Engli

(a) Feedback is provided: on own behalf

Organization:

(b) Feedback is provided: from a worker's perspective

2. E-mail:

3. Feedback:

I work at Royal Inland Hospital and recently sustained quite an injury from a scapel blade.I want to do all I can to prevent this from happening again. I believe in the retractable scapel blades and so far, all I have heard is "There is no money". Perhaps me speaking at this hearing may make a difference once they hear my horrific story.

Sincerely,

L.Roxanne Engli

4. Please indicate your level of support of the proposed amendments:
