Submission ID: P08.Z86.L82.5ZX

Part 6: Substance Specific Requirements, relating to safety-engineered devices for all hollow bore needles

1. Name: rosalina lascano

(a) Feedback is provided: on own behalf

Organization:

(b) Feedback is provided: from a worker's perspective

2. E-mail:

3. Feedback:

part 6 - I stongly support the ammendments in principle but would like them implemented as soon as possible. We need to have JOSH members in the device selection process. There also needs to be a tracking system for any injuries to workers.

4. Please indicate your level of support of the proposed amendments:  
generally agree
