3. Feedback:

3.22 (d) Because pur worksites change on a regular basis is a start up safety meeting where workers are given an up to date hazard assessment of the worksite comply with this legislation? To shut our crew down to give a 2-4hr orientation would be somewhat repetitive as we move from worksites on a sometimes daily basis. However, no matter when we move worksites we always have a start up safety meeting where new hazards are discussed.

4. Please indicate your level of support of the proposed amendments:generally neutral
