3. Feedback:

Our concerns with this type of regulation are:

- 1) 90% of the construction companies are less than 10 employees with little or no admin help. It is unlikely they would be inclined let alone capable of meeting these requirements.
- 2) There is potential risk to Prime Contractors if they fail to verify.
- 3) Definition of new worker could be constructed as everyone as they go from one project to another, the use of the word workplace.
- 4) We do not agree with new worker as anyone under the age of 25. We have 30+ years old workers who have less experience than some workers less than 25 years old and exhibit greater at risk behavior.
