Subject: Policy and Regulation Development Bureau

As per the article in the Abbotsford Times Friday, June 16, 2000
Still want to smoke? Tell them.

Yes, I feel that it is every persons right to smoke or not to smoke. I feel that there should be areas in every resturant and bar, for smokers. Smokers have rights the same as non-smokers. When the smoking ban was on, I personally vowed that I would never enter another resturant or bar if I could not have the freedom to smoke. And I did not. And I will never ever go to a resturant or a bar again if I am not allowed to have my freedom of choice.
