Part 4: General Conditions, relating to working alone or in isolation

1. Name: Sylvia Jucknat

(a) Feedback is provided: on own behalf

Organization: Job Title:

(b) Feedback is provided: from a worker's perspective

2. E-mail:

3. Feedback:

Section #:

Comments: General

I work in the airline industry as a customer service agent. Frequently deal with irrate passengers late at night. The proposed draft, does not cover my field well, and perhaps public transportation sector should be covered more.

The airline industry is already at high risk or security issues, and their should be more specifics for us.

My airline tries to utilize gray areas to get around working alone issues. Stating that building security personnel (who have no formal security training whatsoever, we call them gate keepers) are monitoring us. They are not even in the building half the time.

4. Please indicate your level of support of the proposed amendments:generally agree

5. If you agree or disagree with the proposed amendments, please provide reason(s):

Section #:

Comments: I have many circumstances, in which I have feared for my safety at my airport. It seems employers consistantly place economics above worker safety. I fully support this legislation to force employers to comply and give workers grounds to refuse to work alone.
