RE: Worksafe BC
Public Hearings - Occupational Health and Safety proposed changes to Part 4

It has come to our attention that Worksafe BC is holding hearings on changes to regulations that impact workers working alone (Part 4).

While Mid Island Coop is not available to make a personal presentation, we feel it is important to speak to the issue of worker safety.

Mid Island Consumer Services Cooperative operates 8 gas bar and convenience stores throughout the mid Vancouver Island area, one of which operates on a 24 hour basis.

It is an important issue that we look after the health and safety of our workers who may be required to work alone during some or all of their work shifts. We do not hesitate to fully support any amendments to the Regulations of the Workers Compensation Act which enhances our worker's safety in the work place.

Yours in cooperation,
