Comments:The proposed reinclusion will remove the ambiguity in the industry...in my experience many employers did not continue to supply the traditional levels of first aid coverage after the Part 33 regulations were repealed...often the first aid assessment was not done and the industry scuttle butt was that there was no legal requirement for first aid any more.

4. Please indicate your level of support of the proposed amendments:generally agree

5. If you agree or disagree with the proposed amendments, please provide reason(s):

Comments:Most employers want simple perscriptive regulation in this area of OH&S legislation. Workers should be protected by perscriptive legislation with respect to first aid coverage in the workplace.
