Subject: Safety At Its Best R.B. Renke (2)

Your submission has been received.

Submission ID: P09.S86.8K2.9V7

Part 6: Substance Specific Requirements, relating to biohazardous material

1. Name: R. B. Renke

- (a) Feedback is provided: on behalf of
Organization: Safety at its best Job Title: Safety Professional
- (b) Feedback is provided: from an employer's perspective

2. E-mail: :

3. Feedback:

Section #:

Comments: Section 5.2 should stay the way it is. Many of the workers in construction are illiterate others are averse to safety. Management is always trying their best to call everything a guideline. Please do not change the words.

4. Please indicate your level of support of the proposed amendments:generally agree

5. If you agree or disagree with the proposed amendments, please provide reason(s):

Comments: Section 6 Substances and specific requirements is too broad. Are you going to put the explanatory notes in the Regulations? If not, make it very specific. Add to the existing regulations all the important parts of the explanatory notes. In the end of the day, you, that is writing these regulations, are not in the workplace trying to prove to the manager/supervisor that the meaning is more broader than what s/he is saying. Workers have very little power when it comes to Safety. You ought to know that. Please make it as detailed as possible.

In another note: Are you planning to go into consulting? The way this regulations is written is not geared towards facilitate workers safety, but to help consultants to make a living. This is what it looks like.

4. Please indicate your level of support of the proposed amendments: generally disagree
