

Classification unit description

Steep Slope Roofing	Sector: Construction
	Sub-sector: General Construction
Classification Unit: 721051	

Introduction to classification units

We group all firms into classification units based on the products they produce, the services they provide, and the processes, technology, or materials they use. The base rate reflects the cost of compensation and prevention in the classification unit.

This classification unit description provides an overview of the classification unit for general guidance only. Firms are classified based on this, our classification policies, Rate and Classification List, and other relevant classification unit descriptions. The items listed below are examples only; they are intended to be illustrative (not exhaustive). Every example may not apply to every firm in the classification unit.

Description This classification unit covers firms that install, service or repair roofs with a slope generally greater than 4 in 12 (33%). Firms that power wash or restore steep sloped roofs are also included here.

Install, service or repair Here are some examples of goods that firms in this classification unit install, service, or repair:

Asphalt shingle roofs	Ceramic tile roofs
Clay tile roofs	Concrete tile roofs
Copper roofs	Corrugated metal roofs
Galvanized iron roofs	Metal panel roofs
Metal tile roofs	Shake roofs
Shingle roofs	Slate roofs
Steel tile roofs	Steep slope roofs
Tin roofs	

Services Here are some examples of services that firms in this classification unit provide:

Clean roofs	Install metal flashing
Preserve roofs	Restore roofs
Snow removal from roofs	

Materials Here are some examples of inputs or materials that firms in this classification unit use:

Cedar shakes	Felt roofing paper
Flashing	Insulation ridged boards
Membrane underlay	Modified bitumen sheeting
Roofing material	Shingles
Slate	Tiles

Equipment Here are some examples of equipment that firms in this classification unit use:

Hoist	Ladder
Ladder jack	Pulley
Scaffolding	Trucks

Occupations

Here are some examples of key workers in this classification unit:

Roofer

Shingler

When to contact us

Firms in this classification unit may also occasionally engage in other business activities. However, if they have a significant presence in any of the following industries, it may make sense for them to be assigned to another classification unit.

- 1) installation, service or repair of asphalt roofs, low slope roofs, gravel roofs, or torch on roofs (see CU 721036); or
- 2) cleaning, power washing or restoration of roofs which does not require the worker to walk on the roof (see CU 764022).

Please contact us if you have any questions about this or anything else related to this classification unit description.

Base premium rates

2016: 12.06% (or \$12.06 per \$100) of assessable payroll

2015: 10.71% (or \$10.71 per \$100) of assessable payroll

2014: 8.99% (or \$8.99 per \$100) of assessable payroll
