

Information Bulletin

September 7, 2018

Attention: Expedited Medical Imaging Services Providers

Subject: Operational changes that may affect services to WorkSafeBC

Please be advised that if providers are planning to implement any change in operations that may impact services to WorkSafeBC injured workers, or if you foresee that service requirements as stated in the Agreement cannot be met, providers must contact the Program Manager and the Quality Assurance Supervisor at WorkSafeBC's Health Care Services at least 2 weeks prior to implementation. This allows for collaborative discussions to develop solutions to ensure a smooth transition, and to minimize the impact of service gaps to injured workers.

Please do not hesitate to contact us if you have any questions.
