June 3, 2021

**Attention: Functional Capacity Evaluation (FCE) Providers**

**Subject: Complexity Fee Code**

We would like to take this opportunity to welcome new and previous providers to the FCE network.

In consideration of complex files that request an analysis of greater than three job prospects, providers may request a *FCE review*. If approved, this will allow an uplift fee known as the Complexity Fee (fee code 1252352) to be invoiced.

Providers must obtain approval from the Program Manager or Quality Assurance Supervisor in Health Care Programs prior to invoicing the complexity fee. A brief summary of factors contributing to the complexity of the FCE, as well as a list of occupations which will be analyzed are required for consideration. Please use the [Complex FCE Request Form](#) to summarize this information and email it to the addresses provided below.

Providers should be aware that this uplift fee can only be requested for FCE's requiring analysis of greater than three jobs, and a separate analysis or job match chart must be provided for each job.

If you have any questions, please don't hesitate to reach out to us.
