

Information Bulletin

March 24, 2021

Attention: ASTD, Hand Therapy, OR1, OR2, RTWSS, OT Services, PCMP, PMMP and ECAT Providers

Subject: Job Site Visit Report Template

In an effort to standardize reporting across our rehabilitation programs, we have updated the Job Site Visit Report (form 83D201), which is used by ASTD, Hand Therapy, OR1, OR2, RTWSS, OT Services, PCMP, PMMP and ECAT providers.

The JSV template has been expanded to include a section for return to work barriers. Please use this section to identify any existing or potential barriers which may impact the return to work process.

The new template is now available on the WorkSafeBC website. Please take the time to download and implement it at your earliest convenience:
