## **Attention: Physiotherapy Providers**

### **Subject: New Neurological Physiotherapy Report Template**

#### **Neurological Physiotherapy Report Template:**

WorkSafeBC has created a new standardized report template for Neurological Physiotherapy Treatment Services. The previous "Form 268" should no longer be used for reporting. Similarly, please do not use your own report templates. Please ensure that you transition to using these new report templates effective August 1, 2017.

The Neurological Physiotherapy Report template (83D345) will be required as proof of payment when invoicing the report fee code 19175. The Neurological Physiotherapy Report must be submitted within 7 days of the Initial Neurological Physiotherapy Visit, and the date of service of that visit must be written in the "Date of Service" field at the top of the report. When billing for the Neurological Physiotherapy Report you must bill for the same date of service written in the Date of Service field at the top of the report, or it will not be paid. Furthermore, if you have not submitted the report on the new template the report fee will not be payable.

If possible, and in order to ensure they are legible, please type the reports prior to printing and faxing them in. If you wish to complete the reports by hand, please expand the boxes before printing to enable the ability to provide all of the necessary information required to complete the report.

**Approval to provide Neurological Physiotherapy must be obtained from the Claim Owner, prior to providing an Initial Neurological Assessment.** Please ensure that you are following the fee schedule guidelines for Neurological Physiotherapy

Services. The new report template and updated fee schedule are available on our website at: <https://www.worksafebc.com/en/health-care-providers/provider-types/physiotherapists/reports-invoices>.
