

# Asbestos abatement training

## Provider application form

Anyone performing asbestos abatement work in B.C. must complete mandatory safety training from an approved training provider. To become a training provider, you must be approved by WorkSafeBC. If you are interested in offering training to the public, you must first submit an expression of interest. If you have not yet completed that step, refer to the [Guide for training providers](#) for more information. Once you have completed the expression of interest, you can prepare your application package with this application form and all the required documents listed in the [Submission checklist](#).

All fields in this form are required unless otherwise stated.

This is an application to become an approved training provider for:

- Level 1: Foundational Awareness  Level 3: Asbestos Safety Leader  
 Level 2: Asbestos Safety  Level S: Surveyor Safety

**Note:** If you are applying to train more than one level of certification, you will need to submit a separate application package for each.

### Organization information

Organization name		Mailing address	
Primary contact name and role			Phone number
Email address	Company website (if applicable)		WorkSafeBC account number (if applicable)

Type of training provider (select one):

- Provider currently accredited to an international assessment-based certificate or certification standard
