

Industrial Audiometric (Hearing Test) Facilities

Inclusion on this list indicates that facilities and industrial audiometric technicians are authorized by WorkSafeBC as meeting minimum requirements for conducting hearing tests under section 7.8 of the Occupational Health and Safety Regulation. Business, marketing practices, and experience must be evaluated by the consumer.

Fixed location facilities (pages 1 and 2) have offices or clinics that workers can attend for hearing tests.

Mobile facilities (pages 3 and 4) have vans, trailers, or equipment so that hearing tests can be conducted in various locations.

Fixed location facilities

Note: Facilities marked by an asterisk (*) **do not** conduct tests for the Construction Industry Program.
