

Mobile crane radio coordination

Radios used in mobile crane operations are federally regulated and licensed through the Government of Canada's Spectrum Management System. For more information, visit the [Spectrum Management System website](#), or contact an Innovation, Science, and Economic Development district office.

Radio frequency requests for tower cranes, self-erecting cranes, and industrial cranes should be made using WorkSafeBC's [Radio Frequency Coordination Request form \(Form 52E73C\)](#).
