

WorkSafeBC

Review Division

Statistical Overview – 1st Quarter 2022

The Review Division was created in 2002 as a result of amendments to the *Workers Compensation Act* ("Act") that made significant changes to the workers' compensation appeal process. These changes, which took effect on March 3, 2003, established two levels of review or appeal for most decisions made by the Workers' Compensation Board ("Board"), which operates as WorkSafeBC.

The first level is internal involving an independent review of a decision by a Review Officer in the Review Division and the second level is to the external but also independent Workers' Compensation Appeal Tribunal ("WCAT").

The Review Division's mission is to effectively process reviews and to reduce disputes leading to reviews and appeals by providing:

- Clients with an opportunity to present their case;
- Participants with opportunities to understand and resolve disagreements;
- Clear, fair and consistent decisions; and
- Information and feedback about decision-making to management as part of the overall strategy to improve the quality of decisions.

Purpose of this Report

This statistical overview report is issued at the end of each quarter. The report includes three sections:

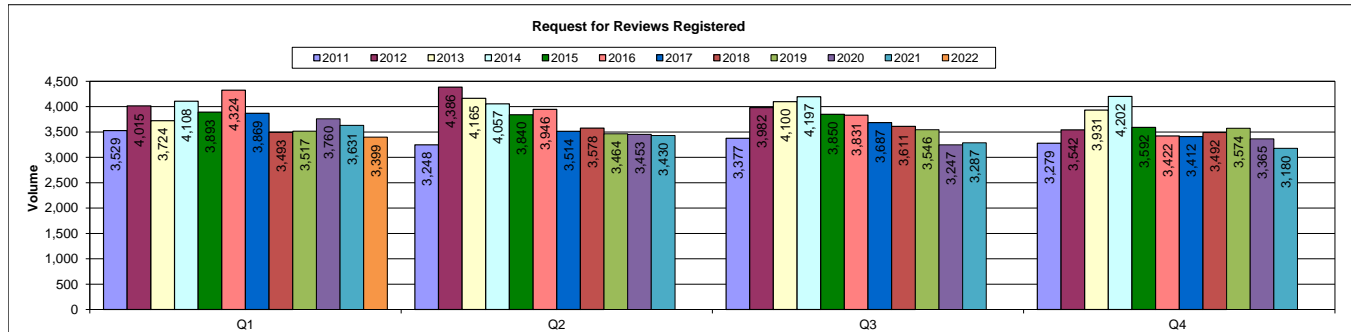

- A. Incoming Requests for Review – Information about the volume of requests for review received by the Review Division
- B. Completed Reviews – Information about the volume and outcome of completed reviews
- C. Completed Issues – Information about the volume and outcome of issues decided in completed reviews. A review may involve more than one issue.

This report is intended primarily for readers who are already familiar with the WorkSafeBC decision-making and the Review and Appeal processes. You may contact the Review Division directly by phone at: **604-214-5411**. Additional information about the Review Division can be found at:

D. Appendix

1. Linkage of Decisions, Reviews and Issues

2. Definition of Terms

The Review Division has authority under Part 6 of the *Workers Compensation Act* (“Act”) to review decisions in specific cases made by officers in the Board’s Compensation Services, Finance (Assessment decisions), and Prevention Divisions.

Pursuant to Section 270(1) of the *Act*, a Request for Review of compensation and assessment decisions must be filed within 90 days from the date when the Board decision. Requests for review of health and safety enforcement decisions must be filed within 45 days after the decision. Board decisions are normally communicated in a letter or other document that includes an explanation of the reasons for the decision. This letter or document should be submitted with the Request for Review form when initiating a review of the decision to the Review Division.

With each decision letter, one or more issues may be identified and each of these issues may be reviewed. Upon review, Review Officers will determine an outcome for each of the issues. Outcomes of issues may be one of the following four types:

Allow	The Review Officer disagrees with the determination made on an issue covered by a decision or order under review.
Allow in Part	The Review Officer disagrees in part with the determination made on an issue covered by a decision or order under review.
Deny	The Review Officer agrees with the determination made on an issue covered by a decision or order under review.
Return to Board	A referral of a decision or order back to the Board so that the Board can conduct further investigation and make a new decision.

For each issue with the outcome of allow or allow in part, a reason must be provided for why. Reasons provided can be one or more of the following:

Error in law	The decision was inconsistent with the <i>Act</i> , a regulation under the <i>Act</i> , or some other law or regulation.
Error in policy	The decision was inconsistent with the published policy of the Board.
Reweighing existing evidence	The decision was changed because the Review Officer reached a different conclusion on the same evidence that was before the initial decision maker.
Reweighing with new evidence	The decision was changed because the Review Officer reached a different conclusion as a result of significant new evidence that was not before the initial decision maker.

Although each review may deal with one or more issues, an outcome for the whole review must be stated using the terms set out in Section 272(9) of the *Act*. Outcomes on each review may be one of the following:

Confirm	The Review Officer agrees with the determinations made on every issue covered by a decision or order under review, though not necessarily with the reasons for those determinations.
Cancel	The Review Officer concludes that a determination on an issue in a decision exceeds the Board's legal jurisdiction and, as a result, should be set aside without a new determination being substituted. On a prevention review, the Review Officer may also conclude that an order is not supported by the evidence and, as a result, should be set aside without a new order being substituted.
Return to Board	A referral of a decision or order back to the Board so that the Board can conduct further investigation and make a new decision.
Vary	Any decision by a Review Officer other than one that confirms or cancels a decision or order. This covers situations where the Review Officer agrees with the determination made on one or more, but not all, the issues covered by a decision or order under review, or disagrees with the determinations on all issues, and decides to substitute a new decision or order.
